Discover our passion for...

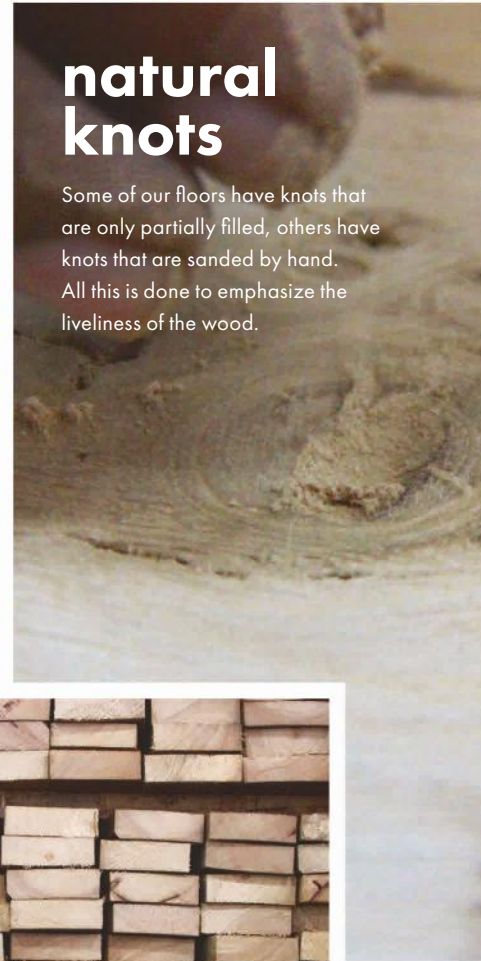

nature

All our floors are PEFC certified, this indicates that the wood comes from sustainably managed forests.

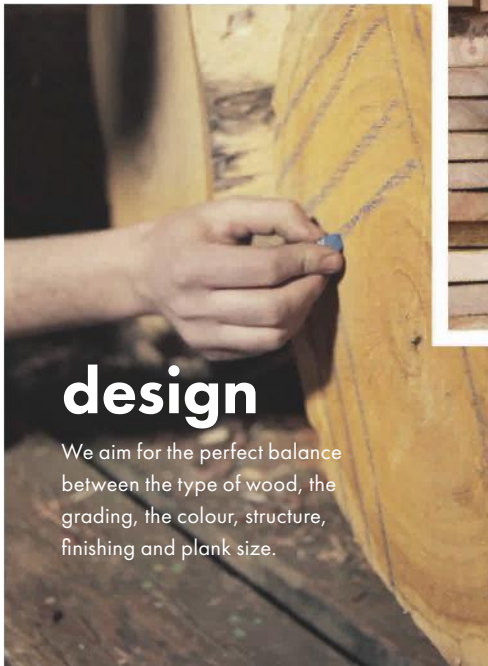

natural knots

Some of our floors have knots that are only partially filled, others have knots that are sanded by hand. All this is done to emphasize the liveliness of the wood.

design

We aim for the perfect balance between the type of wood, the grading, the colour, structure, finishing and plank size.

authenticity

By using different treatment techniques such as fuming and special staining, each plank has a unique colour. Because of this, we create a lively colour variation between the planks. These effects bring the authentic character of nature into your home.

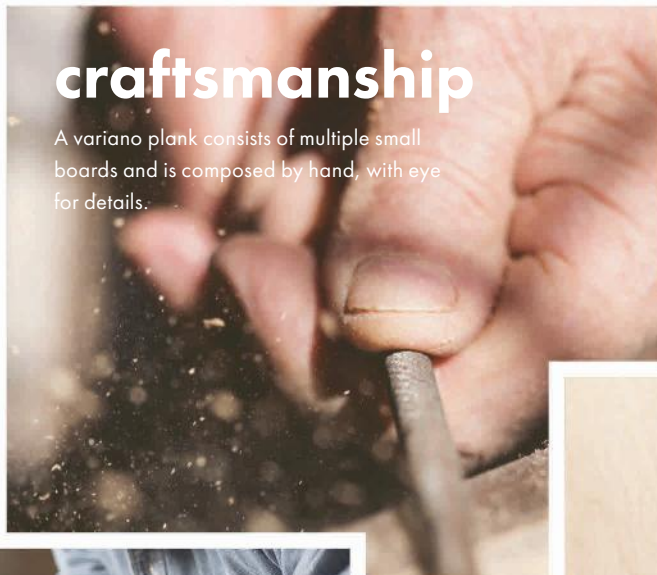

artisan characteristics

Saw cuts are tangible evidence of pure artisanal craftsmanship. The manually applied saw cuts vary both in depth, width and interspace. Not a single plank is identical!

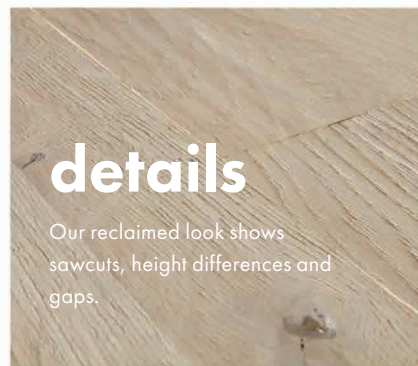

craftsmanship

A variano plank consists of multiple small boards and is composed by hand, with eye for details.

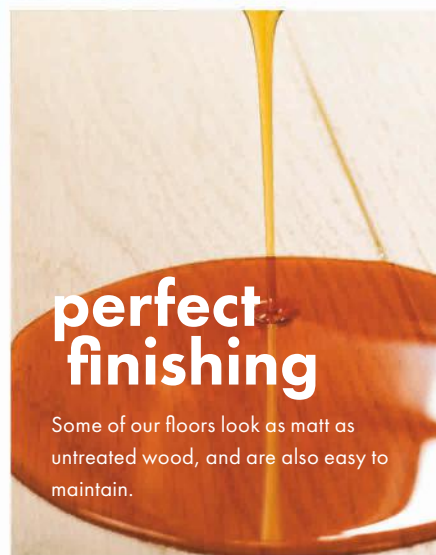

details

Our reclaimed look shows sawcuts, height differences and gaps.

perfect finishing

Some of our floors look as matt as untreated wood, and are also easy to maintain.

wooden structures

We brush some of our floors to accentuate the natural grain of the wood and create an extra authentic feel.

The perfect floor designed for your interior

Design & technology of today

Designing a Quick-Step floor is a process in which technology and creativity go hand in hand. The designers create a very wide variety of floors, each with its own natural character. That's why we work down to the smallest details, so that you can choose from an unparalleled range of designs.

Quick-Step® makes it easy for you

At Quick-Step we don't just offer a product, we offer a total solution. From floors, to skirting boards and stair solutions, underlays, finishing profiles and accessories, our range of products guarantees a perfect result every time.

As the inventor of the Uniclic® Multifit click system, Quick-Step also ensures a hassle free installation.

The system enables you to click the planks together in no time using three different methods, including drop-down.

A heart for nature

At Quick-Step, we are conscious that the world in which you want to live doesn't consist of just stylish interiors. It is equally a world that radiates respect for our natural environment.

That is precisely why we continually do our best to keep the environmental impact of our products and processes to a minimum.

A lifetime of pleasure

Warm, authentic and 100% wood

Our Quick-Step Parquet floors are crafted from 100% real wood and treated with love and care during the manufacturing process. They feel warm at your feet and bring the authenticity of handcrafted wood into your home.

Enjoy immediately

Unlike other wooden floors, there's no post-installation work needed with your Quick-Step Parquet floor. Which means no sanding, no dust, no varnishing, oiling or painting at all. As soon as your Quick-Step Parquet floor is installed, you'll be able to enjoy and use it instantly for years to come!

Can withstand spills and scratches

Thanks to our technologically highly advanced finishes in lacquer or oil, some of our floors look as matt as untreated wood. Moreover our finishes are highly wear, stain and scratch resistant. If you are looking for a floor which is easy to maintain, a Quick-Step Parquet floor is your way to go.

NEW

Discover
the effect of
big

The big effect collection: Massimo

Make it big: that's what our Massimo parquet is all about. With its unprecedentedly long and wide planks, and superior authenticity and craftsmanship, this truly unique wooden floor breathes luxury.

Massimo's story starts with wood, nature's most noble raw material. Massimo is marked by carefully handpicked planks with large knots and cracks, creating a vibrant appearance. Because filling is done manually, knots retain their natural look and the authentic character of the floor is respected. As a result, your floor will always have a lively variation in colour and structure and a rustic appearance. To enhance the nude, untreated look, and protect the floor against stains from coffee and wine, Massimo planks are finished with extra matt oil or lacquer.

What about practical considerations? We're talking engineered wood here, crafted through a combination of artisan principles and the latest design and production technologies. This means that you get maximum stability, along with quick-and-easy installation thanks to Quick-Step's patented Uniclic® Multifit system.

Massimo comes in four beautiful decors, developed in-house by our design team and in line with the latest trends in architecture, fashion and design. Whatever style fits your personality, Massimo can make your biggest dreams come true.

Create your own living space

More inspiration on
www.quick-step.com

A beautiful interior starts with a good foundation. The floor could be considered as the fifth wall and therefore it should not be overlooked. Whatever your style, whatever your room, Quick-Step has the right floor: from light, clean floors to warm brown classics and even reclaimed floors with knots and cracks.

CAS 1356

PAL 1473

$\div 12,5$ mm			6 x  = 1,583 m ²	
$\div 14$ mm	0		6 x  = 2,508 m ²	

Every pack can contain 1 board which is composed of two planks with variable length.

The details make the difference

Each Parquet floor has its own story and a unique look and feel. The Quick-Step designers carefully select the grading, structure and finishing in line with the character of each floor design.

Wood species

Oak

Oak has a yellow to brown colour, with its typical grain.

Ash

Ash planks have a white to pale yellow colour, with smooth grain.

Walnut

Walnut has a warm brown colour which contrasts with the whitish sapwood.

Merbau

Merbau varies widely from orange towards dark reddish brown.

Jatoba

Jatoba planks are reddish pink and brown, with straight grain.

Grading

We have a unique grading system that sorts our floors into five different categories. It gives you an idea of how your floor will look.

Finesse

Wood with little knots. Light variation in colour and structure.

Nature

Wood with knots. Variation in colour and structure.

Marquant

Wood with large knots. Lively variation in colour and structure.

Vibrant

Wood with large knots and small cracks. Lively variation in colour and structure with a rustic appearance.

Character

Wood with large dark filled knots and cracks. Lively variation in colour and structure with a rustic appearance.

CRACKS KNOTS SAPWOOD COLOUR	Natural uniform colour	Natural colour	Lively variation	Lively variation	Lively variation
	Not allowed	All sapwood is colour stained to match the general colour tone of the floor.*	All sapwood is colour stained to match the general colour tone of the floor.	Allowed	Allowed
	Max. 5 mm (not in groups, fully filled)	Max. 20 mm (fully filled)	Max. 50 mm** (half or fully filled)	Max. 80 mm (half filled)	Max. 80 mm (half filled)
	Not allowed	Not allowed	Not allowed		

Treatment

 **Brushed**  **Deep Brushed**

Brushing accentuates the natural grain structure of the wood plank and adds depth.

 **Saw cuts**

Random saw marks show the craftsmanship and character of the wood planks.

 **Timeworn**

Sloping, seemingly worn edges create an aged look.

 **Natural knots**

On some floors the knots are not fully filled. Some of them are even manually sanded to emphasize the liveliness of the wood.

 **Reclaimed look**

Our Variano floors are designed with a reclaimed look: showing saw cuts, height differences and gaps. See p. 19.

 **Design colours**

By using different treatment techniques such as fuming and staining, each plank has a unique colour.

Finishing

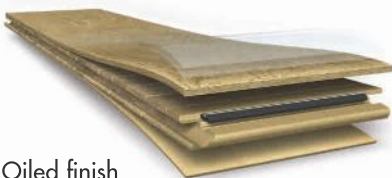

All Quick-Step Parquet floors are prefinished in the factory, which means no oiling or lacquering is needed after installation.

1 Oiled

 **Oiled finish**

 **Extra Matt Oiled finish**

- 2 layers of high quality oil.
- Brings out the authenticity of real wood.
- Can be renewed and repaired with Quick-Step maintenance products.

2 Lacquered

 **Extra matt finish**

 **Matt finish**

 **Silk finish**

 **Satin finish**

- 7 layers of protective lacquer.
- Highly scratch and wear resistant. Protects against water and household chemicals.
- Easy to clean wooden floor.

Extra Matt Oiled Finish NEW

The new extra matt oil finish highlights the nude and authentic character of the wooden floors.

The Variano range is a unique Quick-Step creation. A Variano plank consists of multiple small wooden boards of different length, width and finishes- rough and smooth, with large and small knots, one slightly straighter than the next, perfectly even or with a saw cut. These small boards are handpicked and manually put together like a puzzle, creating splendid eye-catchers with a distinct reclaimed look.

STEP 1 INSTALLATION

Install your floor without hassle!

Laying a Quick-Step floor is so easy thanks to the patented world-famous Uniclic® Multifit click system. This system is highly user-friendly, quicker to install and a lot more solid than other systems. A Quick-Step floor makes installation easy, even in the tightest corners or under radiators and doors.

1 Install your floor anywhere, even on floor heating

Quick-Step Parquet floors are perfect for installing over floor heating, whether you choose for a glued down or floating installation.

2 Easy installation thanks to the drop-down click system

Our Uniclic® Multifit click system is developed especially for Parquet floors, making them fast and easy to install.

3 Installation tools for every situation

Quick-Step accessories such as our installation set or hand saw help make your floor installation easy.

Discover our installation videos on www.quick-step.com

Simply choose click or glue

Whether you opt for a glued down or a floating installation, Quick-Step has the perfect solution.

GLUED DOWN

Why Quick-Step® Parquet Glue?

1 Maximum sound reduction

Reflected walking sound in the room is reduced to a minimum.

2 Resistant to humidity

The Quick-Step Parquet Glue has a good resistance to humidity.

3 Highly elastic

The Quick-Step Parquet Glue is highly elastic. Your floor can breathe and expand with any temperature variation.

4 Ideal for floor heating

Gluing your floor is the best solution for floor heating systems.

Quick-Step® PARQUET GLUE

16kg: QSWGL16 = for +/- 16 m²
use 1-1,2 kg per square metre engineered wood

Quick-Step® PARQUET TROWEL QSWB11

The Parquet glue trowel ensures the perfect glue consumption per m². To be ordered separately.

FLOATING

Why a Quick-Step® underlay?

1 Permanently sound-absorbing

Quick-Step underlays maintain their initial thickness over the years. You may rest assured that they will continue to dampen sounds both in the room in which they're installed and in the room below.

2 Ideal for Uniclic® Multifit

All Quick-Step underlays offer a stable base which protects the Uniclic® Multifit system against heavy furniture and heavy short term loads such as high heels.

3 Levels out irregularities

A Quick-Step underlay creates a firm, level base for your new floor.

4 Excellent damp protection

The integrated Damp Proof Membrane (DPM) protects your floor from rising damp.

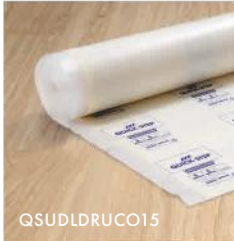

Floor heating: Every Quick-Step Parquet floor is suitable for installation over traditional floor heating. Keep in mind:

- The best result will be obtained when gluing your Parquet floor with Quick-Step Parquet Glue.
- As a damp-resistant screen cannot be used in combination with a glued down wood floor, sudden or large temperature changes might cause condensation.
- For floating installations, we only advise floor heating in combination with the Quick-Step Silent Walk underlay. This underlay stops rising damp or condensation.

A Quick-Step® underlay for every situation

An underlay is an absolute necessity when laying a floor. Installing the right underlay has a major impact on the final look, quality and comfort of your Quick-Step Parquet floor. The high-quality underlays are easy to install, create a level base for your new floor and provide excellent acoustic and thermal insulation. The Quick-Step underlays offer a stable base protecting the Uniclic® & Uniclic® Multifit systems. Moreover, they ensure protection from rising damp.

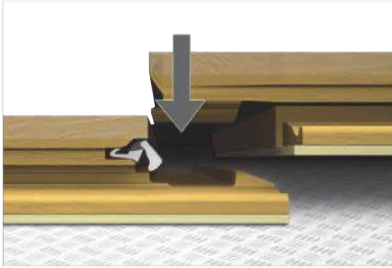

I want a budget friendly solution	I want to reduce both transition as reflected sound	I want to reduce the reflected sound that is caused by walking on the floor	I want to reduce the sound heard by neighbours	I need additional insulation and leveling for my floor

<p>💡 Use this underlay in combination with tape: NETAPE50</p>				

Please note: It is important to use a Quick-Step underlay or Quick-Step Parquet glue to preserve the quality of your floor. When installed and maintained in the right way, Quick-Step can offer a warranty on the Quick-Step floor and Uniclic® Multifit system. Ask your dealer for a genuine Quick-Step underlay or Quick-Step Parquet glue and visit www.quick-step.com to read our warranty conditions.

How to install your floor?

1 Drop down

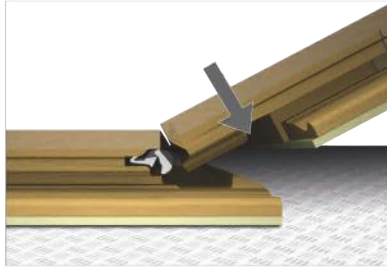

To quickly install a large area.

Click the panel in the long side, slide your floorboard towards each other on the short side and press down.

2 Angling

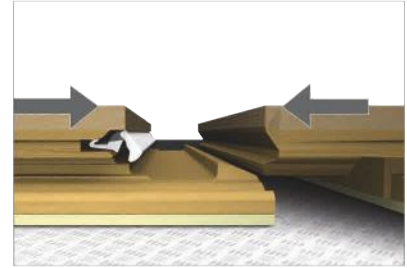

To install the first row of planks.

Click the panels first on the short side and click the long sides together.

3 Horizontal insertion

To install in difficult areas.

Unlike many other brands, Quick-Step Parquet planks can also be inserted horizontally. This is very handy when installing the last row of planks, or in places where it is difficult or even impossible to tilt them (under door frames or radiators, for example).

Installation tools

Quick-Step[®] INSTALLATION SET QSTOOL

Contents: Quick-Step tapping block, metal crowbar, adjustable spacers.

Install your Parquet floor in an easy and professional way with the handy Quick-Step installation set.

Quick-Step[®] HAND SAW QSTOOLSAW

With the help of the Quick-Step hand saw floors can be fitted perfectly underneath door frames.

STEP 2

FINISHING

Finish perfectly

Finish your floor perfectly with the Quick-Step skirtings and profiles.

1 Matching colours

Quick-Step offers skirting boards with perfectly matching colours for every floor.

2 Real veneer

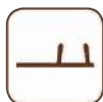

Quick-Step skirting boards are finished with a quality veneer surface. This means they can really take the rough and tumble of everyday life!

3 Quick-Step® warranty

Quick-Step skirting boards come with the same warranty as Quick-Step floors.

Easy to install

**Quick-Step®
TRACK**
240 cm x 0,8 cm x 2,7 cm

Our made-to-measure track allows you to install skirting boards quick and easily. Simply attach the track to the wall with screws or Quick-Step One4All glue and then just click the skirting boards onto it. Afterwards, they can be easily removed, which is ideal when you need access to cables.

**Quick-Step®
ONE4ALL GLUE**
Contents: 290 ml

The skirting boards and profiles can be installed swiftly and securely with the Quick-Step One4All glue.

With one tube of One4All glue you can fix approximately 15 m of skirtings to a wall.

Skirting boards

Quick-Step®
SCOTIA
240 x 1,7 x 1,7 cm

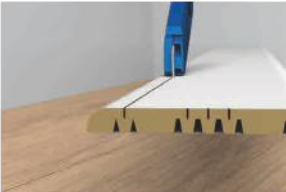

Quick-Step®
PARQUET SKIRTING BOARD
240 x 1,6 x 8cm

Skirting board with a groove on the back to hide phone or computer cables.

Paintable skirting boards

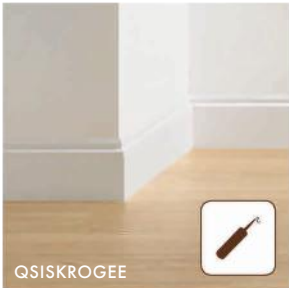

The paintable skirting boards with Incizo® technology are very easily cut to fit the desired height (thanks to the preapplied cuts). Once they are fitted, you can paint them or just leave them white.

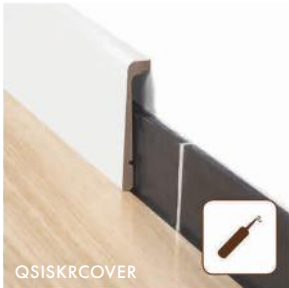

Quick-Step®
OVOLO SKIRTING BOARD
240 x 1,6 x 16 cm

Quick-Step®
OGEE SKIRTING BOARD
240 x 1,6 x 16 cm

Quick-Step®
COVER SKIRTING BOARD
240 x 1,6 x 12,9 cm

Quick-Step®
FLEXIBELE SKIRTING
1,4 cm x 4 cm (to be cut to the desired length)

Also available in a non-flexible version to finish your room in the same style (length 240 cm: QSPSKR4PAINT).

Finishing profiles for floor and stairs

Quick-Step's Incizo® profile is a multifunctional finishing tool. One and the same profile can be used for all the finishes of your floor and stairs, in the matching colour. Simply cut the Incizo® basic profile to the shape required using the supplied splitter.

Quick-Step® Incizo®: five questions, one answer

1 How can I join two floors of the same height?

Use the Incizo® profile cut as an expansion profile.

2 How can I solve variations in height from one floor to another?

Use the Incizo® profile cut as an adapter profile.

3 How do I finish my floor along a wall or a window?

Use the Incizo® profile cut as an end profile.

4 How can I connect my floor to a carpet, and have a beautiful finish?

Use the Incizo® profile cut as a transition profile.

Finishing tools

Quick-Step®
HYDROKIT
QSKITTRANSP 310ml

The Quick-Step Hydrokit is a transparent silicone for an invisible and waterproof finishing of skirting boards, profiles,...

Discover our installation videos on www.quick-step.com

5 What about the finishing of my stairs?

You can cover your stairs or steps with Quick-Step planks and finish in the style of your choice with the Incizo® profile as a stair nose.

Quick-Step® **INCIZO® PROFILE**
